- Meets compliance: OSHA 1926.502; ASSE Z359.1; CSA 259; Military Code – EM 385 – 1
- Product weight: 13 lbs.

The Parapet Roof Anchor by Tie Down Safety provides a parapet wall fall protection anchor for work on lower-level surfaces. This parapet clamp works with retractable lanyards, vertical lifelines, and shock absorbing lanyards. Tie Down designed the Parapet Roof Anchor as the “go to” solution when roof penetration is not an option. This parapet wall fall protection anchor features a large easy-to-grip adjustment handle for quick set-up and proper securement. Tie Down Safety maintains high standards and quality control through quality raw materials and components made in the USA.
