- Locking chain for ladder securement
- Fits all commercially rated temporary ladders
- Made in U.S.A.
- Product weight: 49 lbs.

Tie Down Safety is the leading manufacturer of ladder safety systems. The newest innovation, the 2 Piece Ladder Safety Dock, establishes a safe and consistent access point for temporary ladder use. The 2 Piece Ladder Safety Dock is to be installed on the drip or gravel stop edge and a parapet wall. If the building is existing, then the 2 Piece Ladder Safety Dock makes the access point of the roof easily identified by the roofing or mechanical contractor. Tie Down Safety maintains high standards and quality controls using quality raw materials and component parts made in the USA.
