STINGER

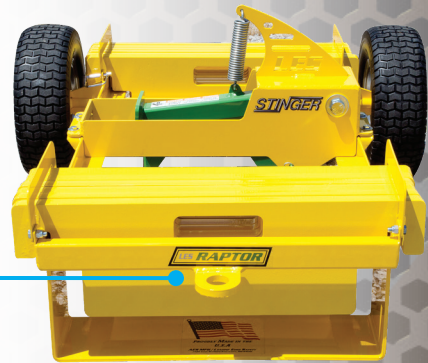

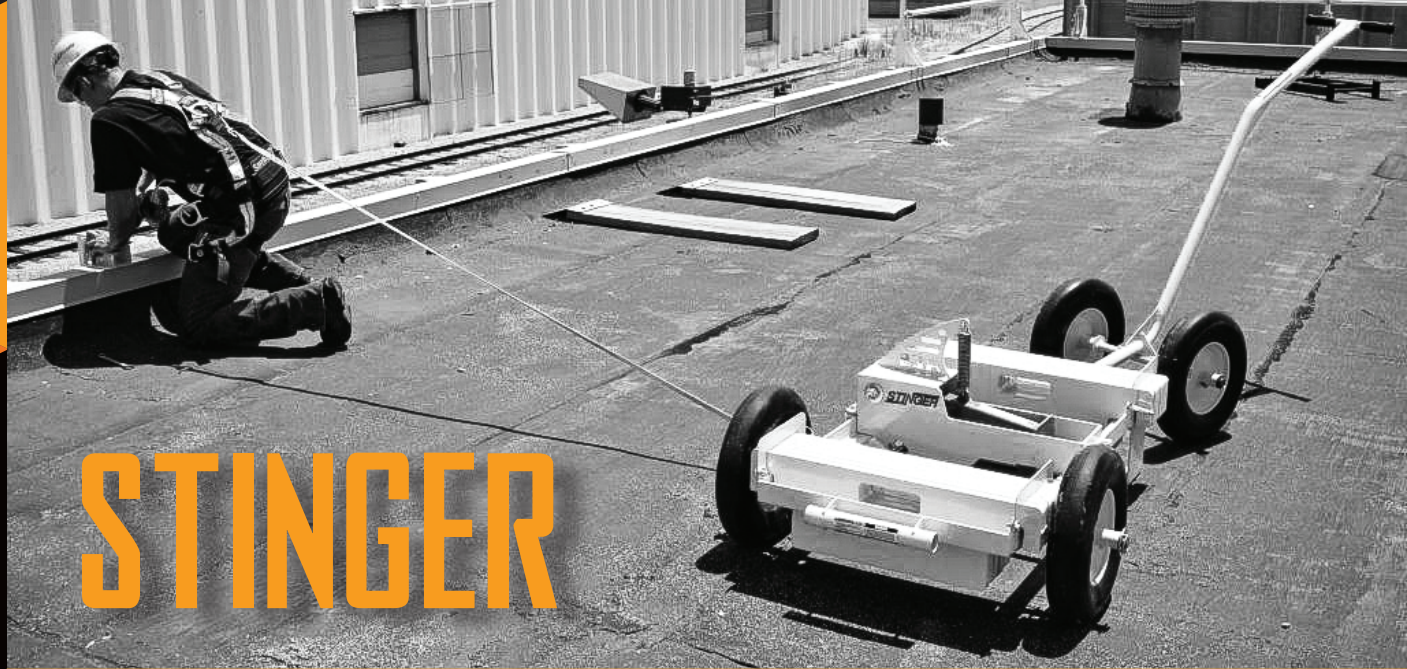

SMALL & COMPACT

MOBILE
FALL PROTECTION

FAQ

Weight	726 LBS
Frame	126 lbs (with engagement box) 89 lbs (without engagement box)
Removable Weights	50 lbs (set of 12)
Arrest Capacity	1 worker
Restraint Capacity	1 worker

Ships standard with flat-free polyurethane tires.

- **Quick removal handle:** slides in underneath and removes easily while performing roof work—no tools required

SMALL & COMPACT—The Stinger™ allows for 1 person fall arrest and 1 person fall restraint. The compact design allows for transport in the back of a truck and can fit through doorways, elevators and roof hatches. The counterweights remove easily to reduce weight while moving.

KEY FEATURES

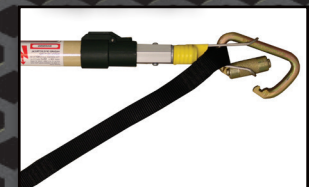

- Allows one worker to be tied for fall arrest and one for fall restraint at the same time
- Easily moved and set up by one person
- Engagement Claw Lock keeps the claw anchored if a fall occurs
- Fits in the bed of a pickup, through doorways, in elevators & through roof hatches
- Counterweights remove easily to reduce weight while moving
- US Patent Number: 8,240,431 B2
- Complaint with OSHA Regulation 1926.502(D)
