Power one 120-volt tool with less than 6% harmonic distortion.

Honda GC160 engine includes a compact combustion chamber, OHC design and uni-block construction for reduced fuel consumption. In addition, an internal timing belt provides quiet operation.

Lifting eyes and ergonomic handle for easy movement up to, and around, a roof deck.

## Hy-Tech Roof Pro 3,000 Features

Max. Power Rating	3000 watts
Cont. Power Rating	2400 watts
Voltage	120 volt single phase
Cont. Current Rating	20 amps
Harmonic Distortion	Less than 6%
Voltage Regulation	+/- 5%
Frequency Regulation	+/- 3%
120-Volt Receptacles	2 x 20A NEMA 5-20R GFCI
Copper Windings	100%
GFCI Duplex Receptacle	Yes
Circuit Breaker	20 amp
Engine	Honda GC160, lightest in its class
Engine Type	Tough-resin OHC
Uni-Block Construction	Yes
Displacement	160 cc
Fuel Tank Capacity	2 QT
Run Time @ Full Load	1.1 hours
Run Time @ Half Load	1.5 hours
Low Oil Protection	Standard
Start Type	Recoil pull start
DB Rating @ 7 Meters	72 dba
CARB Compliant	Yes
EPA Compliant	Yes
Charcoal Canister	Yes, built into gas cap
Lifting Eye	Yes
Carrying Handle	Yes
Stability Support	4 vibration isolator feet
Dimensions	21.4 x 14.5 x 16.5 in.
Weight	68 lbs.
Made In	USA
